## GMC Introduction :

The Gandaki Medical College Teaching hospital Conducts MBBS course at Pokhara. Facilities for running the Medical College, like well-equipped laboratories, modern library, separate hostel for boys and girls under the strict guidance of wardens and 24 hours security, availability of 750 bedded GMC Teaching Hospital to the students for clinical teaching etc have been effectively implemented by the management. The administrative office of the college in Kathmandu supervises all travel requirements and other facilities for the international students and also their visitors.

Nepal is one of India's most amiable neighbours and has deep socio-cultural, political and economic relations in various areas of mutual interest. Its close proximity to India and cultural as well as climatic conditions were factors taken into consideration while choosing the venue of this college and Teaching Hospital. The lush green, 204 Ropanis GMC Teaching Hospital has been equipped with all modern amenities required for certification and clearance from Tribhuvan University, Institute of Medicine, Nepal Medical Council and Ministry of Education, Government of Nepal.

GMC proposes 900 bedded teaching hospital with all activity of clinical and medical facilities, thus providing excellent health care amenities. Gandaki Medical college Teaching Hospital and Research PVT. LTD with 750 bed capacity located in Prithvi chowk, ward no 9 of Pokhara sub metropolitan city of Nepal. GMC will have 400 bedded multi speciality hospital at Lekhnath Municipality-2, which is about 9 km from Pokhara city. GMC aims to be a centre of excellence in health education, service and research. Bachelors of Medicine and Bachelor of Surgery (MBBS) is the focal course for the institute. Other planned courses are Bachelor of Dentistry (BDS), Bachelor of Science in Medical lab Technology (BMLT), Bachelor of Nursing (BN), Bachelor of Science in Nursing (Bsc.Nursing) Bachelor of Science in Medical Imaging Technology (BMIT), Bachelor in Public Health (BPH), Bachelor in Pharmacy (B.pharma).
